## Injury Road Traffic Collisions - Definitions

Data Quality: The PSNI's statistics on injury road traffic collisions and casualties are collated by the PSNI's Central Statistics Branch. These statistics are National Statistics and are produced to high professional standards as set out in the National Statistics Code of Practice.

### **A National Statistics Publication**

National Statistics are produced to high professional standards set out in the National Statistics Code of Practice. They undergo regular quality assurance reviews to ensure they meet customer needs. They are produced free from any political interference.

## 6. Injury Road Traffic Collisions and Casualties

### Summary

#### Overview

- During 2007/08 there were 6,321 injury road traffic collisions. These collisions resulted in 9,748 casualties, of whom 110 were killed, 1,076 were seriously injured and 8,562 were slightly injured.
- Just under eleven per cent (1,040) of the casualties in 2007/08 were children aged under 16. Of these, 6 were killed, 103 were seriously injured and 931 were slightly injured.

#### Collisions

- The total number of injury road traffic collisions increased from 5,615 in 2006/07 to 6,321 in 2007/08 (an increase of 12.6%). This increase was due to an increase in the number of slight injury collisions. The number of collisions resulting in individuals being killed or seriously injured fell by 5.3% (998 in 2006/07, 945 in 2007/08).
- The total number of injury road traffic collisions involving child casualties increased from 762 in 2006/07 to 813 in 2007/08 (an increase of 6.7%). Again this increase was due to an increase in the number of slight injury collisions. The number of collisions resulting in a child being killed or seriously injured fell by 19.1% (115 in 2006/07, 93 in 2007/08).
- The most common causes of injury collisions in 2007/08 were 'inattention' (953 collisions), 'driving too close' (677 collisions) and 'emerging from a minor road/driveway without care' (616 collisions).

#### Casualties

- Overall there was a 5.6% increase in casualties resulting from injury road traffic collisions (from 9,232 in 2006/07 to 9,748 in 2007/08).
- This increase was due to an increase in the number of slight injury casualties. During the year there were 18 fewer fatalities (down 14.1%) and 118 fewer people seriously injured (down 9.9%).
- Drivers of motor vehicles were the single largest casualty class in 2007/08, accounting for just over half (51.2%) of all casualties, followed by passengers (32.4%), pedestrians (8.4%), motorcyclists (4.8%) and pedal cyclists (2.5%).
- Just over two thirds (70.0%) of all child casualties were passengers, 21.4% were pedestrians and a further 7.4% were pedal cyclists.

## **Injury Road Traffic Collisions - Definitions**

### **Collisions**

Collisions involving personal injury occurring on the public highway (including footpaths) in which a vehicle is involved. Collisions are categorised as either 'Fatal', 'Serious' or 'Slight' according to the most severely injured casualty.

### **Killed**

Died within 30 days from injuries received in a collision.

### **Serious Injury**

An injury for which a person is detained in hospital as an 'in-patient', or any of the following injuries whether or not the person is detained in hospital: fractures, concussion, internal injuries, crushings, burns, severe cuts and lacerations or severe general shock requiring medical treatment.

### **Slight Injury**

An injury of a minor character such as a sprain, bruise or cut not judged to be severe, or slight shock requiring roadside attention.

### **Casualty**

A person who sustains a slight, serious or fatal injury.

### **Children**

Persons under 16 years of age.

### **Drivers of motor vehicles**

Drivers of hackneys, cars, motor caravans, LGVs, HGVs, cars used as taxis, minibuses and buses.

### **Motorcyclists**

Drivers/riders of mopeds and motorcycles. Includes riders of two-wheeled motor vehicles, motorcycle combinations, scooters and mopeds.

### **Pedal cyclists**

Drivers/riders of pedal cycles. Includes children riding toy cycles on the carriageway and the first rider of a tandem.

### **Passengers**

Occupants of vehicles other than the driver or rider. Passengers of hackneys, cars, motor caravans, LGVs, HGVs, cars used as taxis, minibuses, buses and pedal cycles.
